Mark Schwarzer
Australian goalkeeper
 Soccer safety affects us all, so I encourage you as NSW soccer supporters to get behind this important initiative. Check goalposts before every game and if you're unsure – seek professional advice.

Cheryl Salisbury
Matildas Captain
 Whether you play in a park, at school or for your local club, soccer should be fun and safe. Children are the future of our game so when it comes to goalpost safety, remember to: check it – secure it – test it and – respect it.

Make safety your goal

As a soccer player, parent, coach, team manager, club official, referee, or spectator you can play a part in ensuring equipment used for your soccer game is safe and suitable.

The best goalposts to use are those that are permanently fixed into the ground.

Where these are not available, moveable goalposts can be used as an alternative.

But you must strictly adhere to safety rules, as falling goalposts can be dangerous.

New safety standards are being developed for moveable soccer goalposts. In the meantime, please read this brochure and follow the safety steps.

This program is endorsed by:

Under no circumstances should people be allowed to climb, swing or play on a moveable goalpost. This can be extremely dangerous.

If you're unsure of the safety of your moveable soccer goalposts, don't use them or let anyone else use them until you have them tested professionally. Soccer NSW and Northern NSW Soccer Federation can help you organise professional external testers.

Again, check there are no children around the goalpost, then shake it by using both hands and pushing from behind the upright.

Before use, adults (preferably club officials) should test all moveable soccer goalposts to make sure they're stable.

Again, check there are no children around the goalpost, then shake it by using both hands and pushing from behind the upright.

Check that all goalposts are in good condition and properly constructed. Refer to the Australian Standard handbook HB227-2003.

Never use goalposts that are homemade.

Check that all goalposts are in good condition and properly constructed. Refer to the Australian Standard handbook HB227-2003.

Check that all goalposts are in good condition and properly constructed. Refer to the Australian Standard handbook HB227-2003.

Check that all goalposts are in good condition and properly constructed. Refer to the Australian Standard handbook HB227-2003.

Officials should undertake the following four steps before **every** match and before **every** training session. Players, coaches, spectators and others should check that these steps have been carried out.

Four steps to moveable soccer goalpost safety

Check it

Check that all goalposts are in good condition and properly constructed. Refer to the Australian Standard handbook HB227-2003.

Check there are no children around the goalpost, then shake it by using both hands and pushing from behind the upright.

If any goalposts fall, do not use them or let anyone else use them until they have been secured.

Secure it

For safety reasons, moveable soccer goalposts of any size must be anchored securely into the ground. As a general rule, it takes about 200 kilograms to properly anchor a full size portable soccer goalpost; this equates to 10 stakes or 12 bags of sand or 10 bags of cement mix per goalpost.

Consider fitting a number of sleeves into the ground along the goal lines of the field

having each upright of the moveable soccer goalpost extended by about 300mm

fitting the upright into the sleeves to make sure they will not topple over.

Respect it

If you see anyone doing this, report them to your club officials **immediately**.

- ✓ Check it
- ✓ Secure it
- ✓ Test it
- ✓ Respect it

Soccer goalpost safety

Play your part

What is a moveable goalpost?

It's a soccer goalpost designed to be a temporary structure which can be transported (whether in one piece or after disassembly) both on and off a soccer field. Provided the moveable soccer goalpost is stable with the necessary safety checks and precautions taken, a safe soccer environment is only a goal kick away.

At the start of the soccer season

All NSW soccer clubs have copies of the Standards Australia Handbook (HB227-2003) and policies issued by Soccer NSW and Northern NSW Soccer Federation. The policy and handbook contain important information about the manufacture, use and storage of moveable soccer goalposts.

You must read these documents, and undertake the following steps before **every** match.

If you believe your soccer goalposts may be unsafe, **do not use them**. Soccer NSW and Northern NSW Soccer Federation can help you organise professional external testers.
